# FEIGHNER BOAT LIFTS & DOCKS

## Statement of Warranty

### Boat Lift Warranty Details

- Feighner Boat Lifts & Docks will warranty all welds on Feighner Vertical Boat Lifts for a period of 15 years Limited Warranty.
- Feighner Boat Lifts & Docks will warranty all welds on Feighner Hydraulic Boat Lifts for a period of 5 years Limited Warranty.
- Cables are under warranty for 2 years.
- Cylinders and hoses are under warranty for 2 years. Customer is responsible for shipping and labor involved in replacing the warranty items.

### Dock Warranty Details

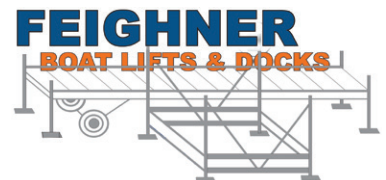

- Feighner Boat Lifts & Docks will warranty\* all welds on dock frames for the lifetime\*\* of the original purchaser. This does not include accessories.
- Feighner Docks are not intended for diving applications.
- All Decking warranty issues will be handled through Feighner with the aid of the decking manufacturers. Decking manufacturers determine their own warranty programs.

### General Warranty Terms

- All warranty issues are administered through the selling dealer with Feighner Boat Lifts & Docks acknowledgment.
- The warranty is for the original owner and not transferable.
- Feighner will warranty the entire structure of all Feighner Boat Lifts & Docks and accessories to the original owner for a period of 2 years when purchased new for residential use.
- All warranty items must be returned to Feighner Boat Lifts & Docks freight prepaid and the warranty item will be reshipped freight collect.
- Feighner Boat Lifts & Docks reserves the right to repair or replace any warranty item.
- Feighner Boat Lifts & Docks is not liable for damages or injuries as a result of misuse/neglect, installation/removal, or the purchase of inappropriate selection of style or weight capacity of one of our products.
- The warranty will be voided on any product that is left in a frozen body of water or water with ice movement.
- In the event that any Feighner Boat Lift & Dock product is used in brackish water, saltwater or acidic water, a 1 year limited warranty for Saltwater Use, shall take priority over the 15 year Limited/Lifetime warranty for Residential Use or Non-Residential Use.
- Feighner Boat Lifts and Docks is not liable for repairs or modifications to its products.
- Modifications void all warranties.
- Components obtained from other manufacturers and used in Feighner Boat Lifts & Docks products, will be covered under that manufacturer's warranty.
- Specifications are subject to change without notice.
- Feighner Boat Lifts & Docks will not warranty damage to aluminum, hydraulic or electric components caused by overload, corrosion, submersion, low voltage, misuse, or acts of God.

**\*War•ran•ty noun:** A legally binding guarantee attesting to the quality and durability of a product.

**\*\*Life•time noun:** The period of time during which an individual is alive.

# About Us

CHARLOTTE, MICHIGAN

The Feighner Company (TFC) was initially started in 1969 as a small family farm in Nashville, MI. By 1973, the company had grown into a significant farming and custom hay baling operation farming hundreds of acres. In 1982, as the company continued to grow, a second building was constructed to house offices and a retail feed store on the family farm. In 1987, The Feighner Company became incorporated as a Michigan Corporation.

In 1990, Scott's father wanted to see which manufactured docks were available for purchase for the family cottages in northern Michigan, since the traditional wooden framed dock was failing. Scott located a rolling dock manufacturer that looked interesting and contacted them to purchase a dock. This quickly evolved into TFC selling products for that manufacturer.

Over the next several years, it became very apparent to Scott that there was a huge opportunity to manufacture aluminum docks and lifts to the highest standards available and supply an excellent warranty to the customer. Scott decided that if he was going to stay in the dock and boat lift business, he was going to make his own design modifications and provide impeccable customer service and warranties on all products that had the Feighner name, and the rest is history.

Since then, Feighner has continued to grow into a nationwide manufacturer. In 2006, Feighner Boat Lifts & Docks moved to Charlotte, MI to a much larger facility. This building was expanded upon five times since it's purchase and continues to be the main manufacturing hub. In 2020, Feighner opened a showroom and manufacturing space in Perry, MI, along the international highway, I-69. Entering into 2022, the facility has tripled in size and encompasses almost an entire acre under roof. In 2021, Feighner opened a distribution center in Gwinn, MI – conveniently located in the beautiful Upper Peninsula of Michigan.

Feighner Boat Lifts & Docks builds and markets docks and lifts all year around, not just on a seasonal basis. Feighner Boat Lifts & Docks always stands behind their products, which keeps our customers, continually coming back for new innovative boat lifts and docks and excellent service. The two Feighner Boat Lifts & Docks key components to quality are our employees and the TFC manufacturing controls.

1. Our employees are full time, and have built thousands of units before yours. They genuinely care that your new boat lift and dock is built to your satisfaction.
2. Feighner Boat Lifts & Docks controls every aspect of our manufacturing processes. TFC manufactures every part that is utilized in a Feighner boat lift and dock. Every Feighner boat lift and dock is manufactured by our employees in Michigan.

The Feighner Company is still a family corporation and would like to invite you to stop by for a tour of our facility and to meet the family and staff.

SLATE

## FEIGHNER ENGINEERED ALUMINUM PIPE

Available in two diameters for residential and commercial applications.  
8' - 10' - 12' and 20' lengths in stock

- 23% stronger than 2" steel pipe when being struck by a moving boat
- Holds 40% more load weight than 2" steel pipe

# Feighner Sectional Dock Support Options

## Classic Cross Arm

Shallow water applications, 8" sleeve, 1 set bolt

## Turn Arm

Used to make L Shape configurations

## Superior Cross Arm

Robust 16" sleeve, 2 set bolts and diagonal bracing

## T Arm

Used to make T Shape platform

## Deep Water Cross Arm

39" sleeve, 4 set bolts, recommended for 6' or more of water

Sectional Dock Supported with Superior Cross Arms

# Superior Sectional Docks

## Superior Sectional Dock Features

- Offered in a standard 4'x10'
- 16" on center offered in SunWalk 90 decking
- 12" on center offered in SunWalk 45, Coastal and Maintenance Free Recycled Plastic
- Can easily be configured straight out, an L or T shape or a platform
- Supported with our Superior Cross Arm, complete with a 16" sleeve and side bracing for added stability
- Stainless steel screws fasten decking to the frame

# Patio Docks

## SHORELINE PATIO SYSTEM

### Patio Dock Features

- Perfect area for lounging and socializing
- Generally extends 8' or 12' out into the water and stretches along the shoreline
- Easier to install than large platforms at the end of a dock
- Supported with heavy duty double box frame construction
- Ideal for parking boats parallel to the shore
- Can easily provide a shore base for a longer dock

# Adjustable Steps

## ADJUSTABLE STEPS

*Available in any size!*

**Treads are height adjustable,  
ranging from 3" to 10"**

Adjustable steps are a standard 4' tread width and comes standard with (1) handrail, (2) 2.5' pipes, (2) mud pads, (2) rubber caps and mounting hardware.

Additional handrails are available for a fee.

### **How do I know how many steps I need?**

Take your total height in inches and divide that by 8. The answer equals the minimum amount of steps required.

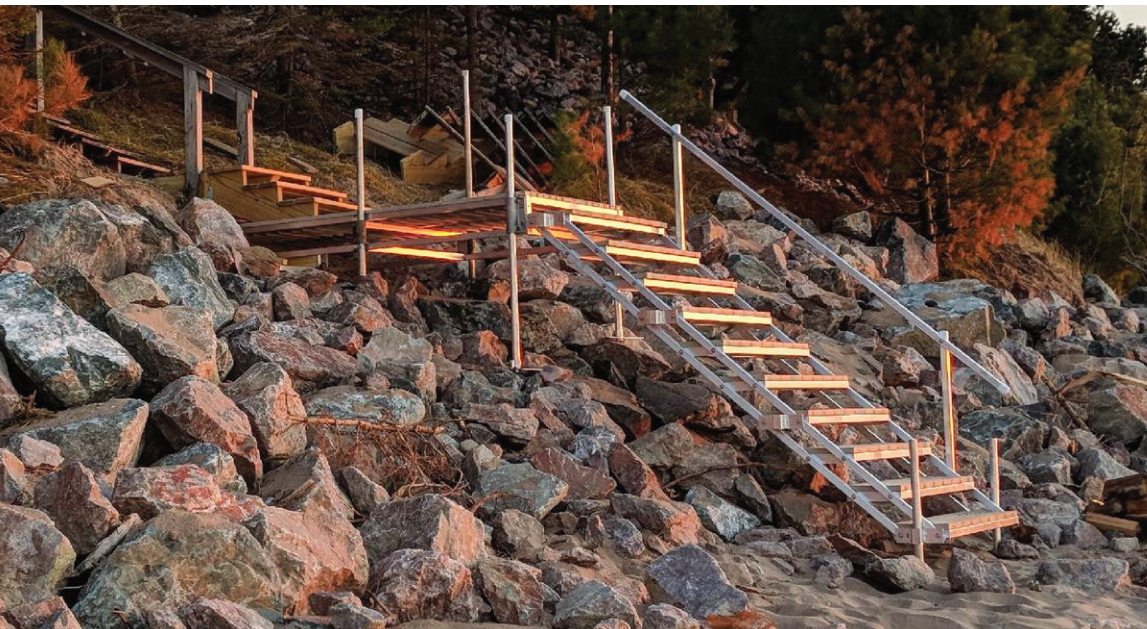

## ADJUSTABLE STEP DOCK

- 2 Steps
- 4 Steps
- 6 Steps

### **Adjustable Steps vs Step Dock**

Adjustable steps are used to get to the water from the top of a dock or seawall. Step Docks are used to get down, but also to extend out further in length during the descent. Often times used to get down from a very tall seawall while replacing the first section of dock.

**Larger Steps  
Are  
Available  
Upon  
Request**

# Rolling Docks

Landside Wheel Kit on SunWalk 45 Grey

## Rolling Dock Features

- All Aluminum Box Tube Construction
- Full Length Center Stringers
- Standard 4' width, available in 6', 8' and 12' widths
- Strong Roller System for Smooth Height Adjustment
- Available With or Without Wheels
- Wheelchair Accessibility
- Aluminum Stand Pipes
- Modular Design for Virtually Unlimited Configuration

Solar Cleat

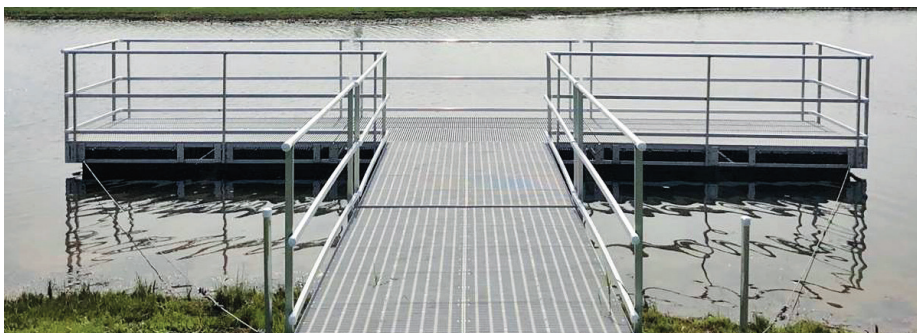

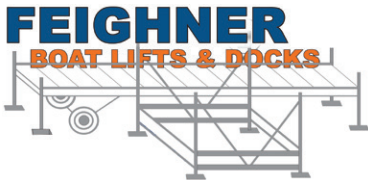

# Floating Docks

## Floating Dock Features

- Floating Docks are an excellent selection for deep or mucky waterfronts
- 6' wide dimension is ideal for going straight out
- 4' wide dimension is ideal for making wider "T" shaped or marina style slips
- Can add bolt-on handrails for safety or commercial projects
- Gangway with hinge available to transition from shore to water
- Popular for farm ponds or other areas with changing water level
- Entire structure is augered into the ground
- Weight is supported with foam filled float tanks that will not fill with water

# Cable Boat Lifts

## EASY RISER II VERTICAL BOAT LIFT

### Features

- Shallow Water Design
- Total of 79.5" of Lift Height
- Triangulated Side Structure for Easy Boat Access
- Heavy Duty Slide Mechanism Keeps Bed on Track and Eliminates Binding
- Heavy Duty Chain Drive Winch
- Low Maintenance Sheaves
- Stainless Steel Connecting Hardware
- Heavy Duty Aluminum Frame Construction
- Wide Array of Accessories Including:
  - *Centering Guides and Steps*
  - *Motors*
  - *Canopies*
  - *E-Z Out Wheels*

Easy Riser II 5,500 LB. Capacity with Inboard Bunks

Easy Riser I 2,500 LB. Capacity With Regular Bunks

## EASY RISER BOAT LIFT

### Features

- Total of 74" of Lift Height
- Available in Narrower Widths
- 75 lbs. + Lighter than the Easy Riser II
- Heavy Duty Chain Drive Winch
- Low Maintenance Sheaves
- Stainless Steel Connecting Hardware
- Heavy Duty Aluminum Frame Construction
- Wide Array of Accessories Including:
  - *Centering Guides and Steps*
  - *Motors*
  - *Canopies*
  - *E-Z Out Wheels*

# Boat Lift Accessories
